## DETAILED ACTION

### *Drawings*

1. The drawings were received on 3/1/03. These drawings are approved.

### *Reissue Applications*

2. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

3. Claims 39-46 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

The "sensor" was added to claim 32 of the Patent in a supplemental amendment filed 11/4/99 after which the claim was deemed to be allowable. The "sensor" as noted in paragraph 6 of the declaration is not included in claim 39 of the Reissue Application.

Art Unit: 3616

*Allowable Subject Matter*

4. Claims 1-38 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art fails to show an airbag inflator with a liquid propellant injected into a combustion chamber whereby the combustion rate of the liquid is controlled by a controller or modulator using rheological fluid.

*Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references previously cited in the Patent are cited on the Notice of Reference Cited to make the references of record in this case.
